RESEARCH SUMMARY

AI safety and evaluation researcher for language and multimodal models. I design and run evaluations end-to-end, spanning benchmark and red-teaming study design, execution, analysis, and public release. My work includes lead-author publications at ACL, ECCV, AACL, WACV, and LREC, with research collaborations involving Microsoft, BMW Group, the Korea AI Safety Institute (AIS), KT, and LG Electronics.

EDUCATION

Yonsei University , Seoul, South Korea	03.2024 – 02.2026
M.S. in Digital Analytics, College of Computing	GPA: 4.26/4.50
Kyung Hee University , Seoul, South Korea	03.2013 – 02.2019
B.A. in Japanese Language and Physical Education (Double Major)	GPA: 4.07/4.50

RESEARCH EXPERIENCE

AIM Intelligence — *Principal Researcher, Evaluation Team Lead* 07.2025 – Present

- Led *Judgement Day: AI Red Team Arena*, an online multimodal red-teaming competition co-hosted with the Korea AI Safety Institute (AIS), attracting 470+ participants and 120,000+ attack attempts across two high-stakes red-teaming tracks; led scenario design, evaluation, scoring, and execution end-to-end.
- Led *XL-SafetyBench*, a country-grounded cross-cultural LLM safety benchmark with 5,500 test cases across 10 country-language pairs, in collaboration with Microsoft, Korea AIS, and KT.
- Led the BMW Group collaboration on organization-specific LLM policy alignment, developing the *COMPASS* evaluation framework with 5,920 validated queries across 8 industry scenarios (ACL 2026); core method filed as an EP patent.
- Co-led research on benign-sounding audio jailbreaks (*WhisperInject*) in audio-language models in collaboration with LG Electronics.

SIONIC AI — *ML/DL Research Intern* 12.2024 – 02.2025

- Developed multilingual reasoning benchmarks for Korean and Japanese language models, emphasizing cultural and linguistic diversity.
- Built a systematic evaluation leaderboard for cross-model performance comparison.

Samsung Medical Center — *Data Analysis Researcher* 07.2023 – 03.2024

- Created an LLM evaluation framework for medical documentation with comprehensive error taxonomies and quality standards (JMIR 2024; Best Student Paper at MedInfo 2025).
- Led federated learning model development for breast cancer prognosis prediction in a Ministry of Trade, Industry, and Energy-funded project.

SELECTED PUBLICATIONS

Selected publications; full list on [Google Scholar](#). (equal contribution; † corresponding author)*

Selected Lead-Author Publications

XL-SafetyBench: A Country-Grounded Cross-Cultural Benchmark for LLM Safety and Cultural Sensitivity

- Dasol Choi**[†], Eugenia Kim, Jaewon Noh, Sang Seo, Eunmi Kim, Myunggyo Oh, Yunjin Park, Brigitta Jesica Kartono, Josef Pichlmeier, Helena Berndt, Sai Krishna Mendu, Glenn Johannes Tungka, Özlem Gökçe, Suresh Gehlot, Katherine Pratt, Amanda Minnich, Haon Park[†]
- NeurIPS 2026 (Evaluations & Datasets Track)*

COMPASS: A Framework for Evaluating Organization-Specific Policy Alignment in LLMs

- Dasol Choi**^{*}, DongGeon Lee^{*}, Brigitta Jesica Kartono^{*}, Helena Berndt, Haon Park, Hwanjo Yu, Minsuk Kahng
- ACL 2026*

When Cars Have Stereotypes: Auditing Demographic Bias in Objects from Text-to-Image Models

- Dasol Choi**, Jihwan Lee, Minjae Lee, Minsuk Kahng
- ECCV 2026*

What Users Leave Unsaid: Under-Specified Queries Limit Vision-Language Models

- Dasol Choi**^{*}, Guijin Son^{*}, Hanwool Lee^{*}, Minhyuk Kim, Hyunwoo Ko, Teabin Lim, Eungyeol Ahn, Jungwhan Kim, Seunghyeok Hong, Youngsook Song
- ACL 2026 Findings*

Better Safe Than Sorry? Overreaction Problem of Vision Language Models in Visual Emergency Recognition

- Dasol Choi**, Seunghyun Lee, Youngsook Song
- WACV 2026*

Redefining Evaluation Standards: A Unified Framework for Evaluating the Korean Capabilities of Language Models

- Hanwool Lee^{*}, **Dasol Choi^{*}**, Sooyong Kim, Ilgyun Jung, Sangwon Baek, Guijin Son, Inseon Hwang, Naeun Lee, Seunghyeok Hong
- *LREC 2026*

Distribution-Level Feature Distancing for Machine Unlearning: Towards a Better Trade-off Between Model Utility and Forgetting

- **Dasol Choi**, Dongbin Na
- *AAAI 2025*

LLM-Based Medical Document Evaluation: Integrating Human Expert Insights

- Junhyuk Seo^{*}, **Dasol Choi^{*}**, Wonchul Cha, Taerim Kim
- *MedInfo 2025* — **Best Student Paper Award**

Evaluation Framework of Large Language Models in Medical Documentation: Development and Usability Study

- Junhyuk Seo^{*}, **Dasol Choi^{*}**, Wonchul Cha, Haanju Yoo, Namkee Oh, Yongjin Yi, Gye-hwa Lee, Edward Choi, Taerim Kim
- *Journal of Medical Internet Research (JMIR)*, 2024

Selected Co-authored Publications

Pushing on Multilingual Reasoning Models with Language-Mixed Chain-of-Thought

- Guijin Son, Donghun Yang, Hitesh Laxmichand Patel, Amit Agarwal, Hyunwoo Ko, Chanuk Lim, Srikant Panda, Minhyuk Kim, Nikunj Drolia, **Dasol Choi**, Kyong-Ha Lee, Youngjae Yu
- *ICLR 2026*

Under Review

When Context Flips, Safety Breaks: Diagnosing Brittle Safety in Aligned Language Models

- **Dasol Choi^{*,†}**, Alex Kwon^{*}

NOLLI: A Difficulty-Calibrated Puzzle Benchmark for Diagnosing the English-Korean Performance Gap

- **Dasol Choi^{*}**, Joonyong Park^{*}, Daegon Yu, Soo Yong Kim, Youngsook Song, Seunghyeok Hong

When Good Sounds Go Adversarial: Jailbreaking Audio-Language Models with Benign Inputs

- Hiskias Dingeto^{*}, Taeyoun Kwon^{*}, **Dasol Choi^{*}**, Bodam Kim, DongGeon Lee, Haon Park, JaeHoon Lee, Jongho Shin

EgoSafetyBench: A Diagnostic Egocentric Video Benchmark for Evaluating Embodied VLMs as Runtime Safety Guards

- Siddhant Panpatil, Arth Singh, Mijin Koo, Chaeyun Kim, Haon Park, **Dasol Choi[†]**

PATENTS

Method and System for Automated Evaluation of a Conversational Language-Model Assistant Against Organization-Specific Policies (EP 25216794.5; Nov 18, 2025)

Method and Apparatus for Evaluating Safety of an Artificial Intelligence Model (KR 10-2025-0148814; Oct 15, 2025)

Multimodal Content Policy Violation Decision System (KR 10-2026-0025381; Sep 30, 2025)

Method for Security Vulnerability Analysis of Multimodal Artificial Intelligence Models Through Covert Adversarial Input Generation Based on Media Signals and Electronic Device for Performing the Same (KR 10-2026-0150079; Aug 11, 2026)

SERVICE & COMMUNITY INVOLVEMENT

Seoul Forum on AI Safety & Security (SFASS) 2026, *Core Organizing Team & Speaker* 07.2026

- Co-organized the forum program, including the Red-Teaming Workshop and Live Red-Teaming Challenge.
- Talk: “Judgement Day: Insights from Multimodal Red-Teaming Challenge.”

AI Safety Night SF, *Organizer* 08.2026

- Organized an in-person AI safety community event in San Francisco, bringing together **150+ researchers, engineers, founders, and practitioners** for lightning talks, a research panel, and networking.

AAAI 2026, 2027, *Program Committee Member*

- **Main Track** and **Alignment Track** (responsible AI, alignment, and safety)

HAERAE Open-source Research Community, *Researcher, Benchmark Lead* 05.2024 – Present

- Led benchmark development across Korean language and multimodal evaluation, including **HAERAE-Vision**, a culturally grounded Korean vision-language benchmark, and **NOLLI**, a difficulty-calibrated English–Korean puzzle benchmark with 7,500 items across 15 puzzle types.
- Developed the **Haerae-Evaluation-Toolkit (HRET)**, a unified evaluation framework for Korean LLM benchmarking with standardized APIs and an extensible architecture.

AWARDS & ACHIEVEMENTS

- **Best Student Paper Award**, MedInfo 2025 08.2025
- **Google East Asia Student Travel Grant**, AAAI 2025 03.2025
